

### ***Don't drop your guard***

*COVID-19 fatigue is as dangerous as the virus. Cases across the Royal Borough continue to rise at an alarming rate due to the new variant, and local NHS services are under immense pressure – more so than last April. And the 'Christmas effect' is still yet to be fully shown.*

*It's tempting to think, with the roll-out of the new vaccines, that the pandemic is nearly over. It is not. The behaviour of each and every one of us will make the difference. Stay home. It's as simple as that.*

If it's easier for you to simply share our latest social media posts about COVID-19, you can find them on our platforms and choose which ones you want:

- Twitter - @RBWM
- Facebook - RBWM

If you do share any of our messaging, it would be really helpful if you [fill in our form](#) so we can track how far this information travels.

If people you know are still unsure about the lockdown restrictions, they can read them here: [Government lockdown rules in full](#).

They can also check the Royal Borough's COVID-19 latest case data on the Berkshire Public Health website: [Berkshire Public Health COVID-19 dashboard](#) and click on Windsor and Maidenhead. To see the data broken down into wards, click on 'information centre' on the top right of the screen and look at the weekly reports.
